**We produce and
market the best.**

From **Africa** to the world!

From Angolan industry to international
markets — **water, construction and
energy**, supported by the world's
foremost international brands

IT HAPPENS WITH US!

#ithappenswithus

www.ecoindustry.co.ao | www.ecoindustry.africa

Entrepreneurial spirit, *international standard.*

ECOINDUSTRY is founded on Angola's entrepreneurial spirit, supporting economic diversification and the nation's industrial development. Drawing on the exacting quality standards of esteemed European producers, **we manufacture in Angola and bring the finest brands to the world.**

We demonstrate our commitment to quality and customer satisfaction through **ISO 9001** certification of our Quality Management System. We are also an **ANPG-certified supplier**, reinforcing our credibility and ensuring compliance with the sector's most exacting standards.

We remain firmly committed to environmental sustainability, prioritising local resources — reducing reliance on imports and lowering the country's carbon footprint.

FROM **ANGOLA** TO THE WORLD

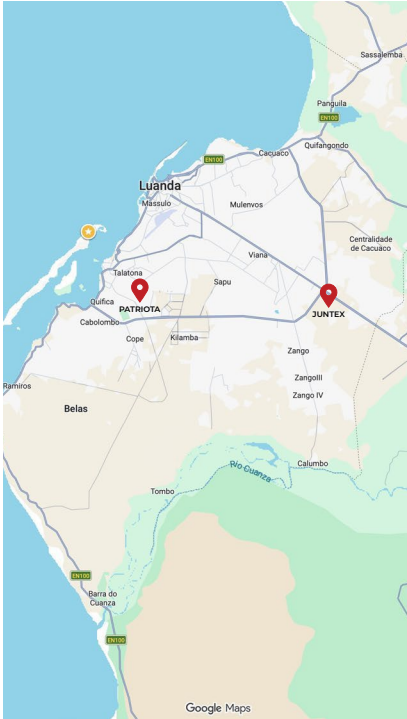

ECOINDUSTRY has been preparing to meet the requirements of international markets, ensuring its products align with the highest standards and providing translations in multiple languages. Consequently, it has already successfully completed several exports of products manufactured in Angola.

Four sites, *the same exacting standards.*

Luanda

PATRIOTA & JUNTEX Units — Production and Head Office

UNIT PATRIOTA

Manufacture of a broad range of chemicals for the treatment of drinking, industrial and swimming-pool water — the cornerstone of the ECOINDUSTRY brands.

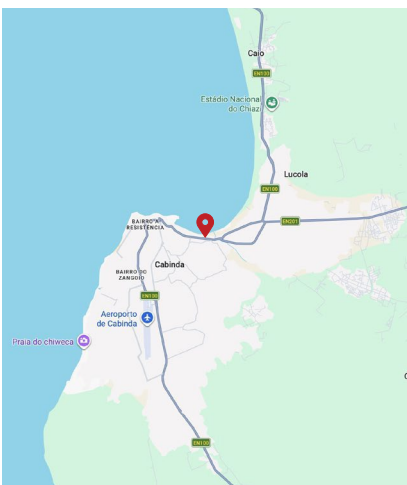

UNIT JUNTEX

Luanda-Bengo Special Economic Zone. Exceptional production capacity in Africa — mortars, tile adhesive and technical sands.

Cabinda

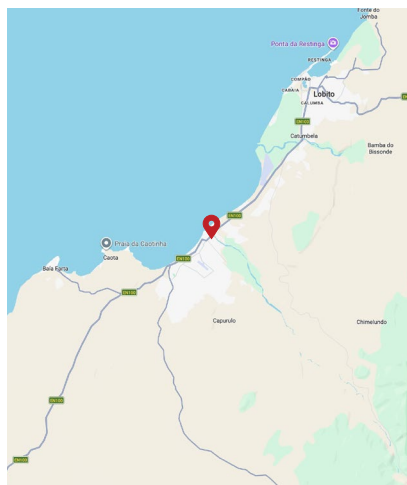

Commercial Office

DELEGATION · CABINDA | LOMBO-LOMBO DISTRICT

Benguela

Commercial Office

Delegation · Benguela | Av. Gov. Sousa Coutinho

Our brands, *solutions for every requirement.*

A selection of proprietary and partner brands, structured across three areas — water treatment, civil construction and industrial equipment — all meeting the same exacting quality standard.

Tile adhesives, jointing mortars, renders and quartz sands.

Algaecide, pH (+/-), flocculant, chlorine, tablets, multifunction products, testers and pool accessories.

OIL & GAS

Chemical solutions for the oil and gas sector.

Chemicals for water treatment and industrial processes.

Technical sands available in 13 particle sizes, suitable for water treatment works and industrial filtration.

10× more powerful than chlorine. Environmentally responsible, with no hazardous by-products.

Specialist mortars — Maxseal, MaxKola and MaxGrout — together with a concrete repair range.

Motors, transformers, generators, industrial automation and electrical control panels.

Pumps, valves and systems for water abstraction, lifting, treatment and distribution.

Equipment, reagents and testing solutions for water analysis.

Containerised WTPs and WWTPs for the treatment of all water types.

Ecofood, Ecowash, Ecopure, Ecolixívia — essential household hygiene for everyday use.

JAGUAR

CONSTRUCTION PRODUCTS

JAGUAR is a wholly Angolan brand dedicated to the construction sector, manufactured locally and committed to quality, dependability and the promotion of national production. Its portfolio brings together essential on-site solutions, including **tile adhesives, renders and jointing mortars**, developed to meet market requirements.

Key solutions:

Tile adhesives · Renders ·
Jointing mortars

ECOPOOL

POOL WATER TREATMENT PRODUCTS

ECOPOOL provides comprehensive solutions for the treatment and maintenance of swimming pool water, offering pool products, accessories and specialised technical support.

Key solutions:

Algaecide · pH (+) · pH (-) ·
Flocculant · Chlorine ·
Chlorine Tablets · Multi-
Action Chlorine · Tester ·
Tester Refill · Pool
Accessories

OIL & GAS

CHEMICAL SOLUTIONS FOR THE OIL & GAS INDUSTRY

ECOINDUSTRY supplies **industrial chemicals to oil and gas companies**, supporting onshore and offshore operations, refineries and other industrial facilities with high-quality solutions and a dependable, continuous supply.

Product portfolio:

Sodium Hydroxide · Sodium Hypochlorite · Sodium Chloride · Calcium Carbonate · Additional industrial chemicals.

As an ANPG-certified supplier, ECOINDUSTRY fulfils the quality and compliance requirements expected by the oil and gas sector.

CHEMICALS

WATER TREATMENT & INDUSTRIAL PROCESSES

ECOINDUSTRY Chemicals provides an extensive range of **chemicals for water treatment and industrial processes**, supporting supply and treatment systems, industrial utilities and a wide range of technical applications.

Local manufacturing, dependable continuous supply and specialist technical support for clients across the water, industrial and infrastructure sectors.

Key applications:

Water treatment · Boilers · Reverse osmosis · Cooling towers · Industrial processes

eco industry
químicos

ECOSAND

■ SELECTED AND GRADED SANDS

ECOSAND brings together carefully selected technical sands for **filter media**, with precisely controlled particle sizing for water filtration systems, water treatment plants and industrial applications.

Key solutions:

Filter media · Technical sands · Water treatment plants · Industrial filters · Multilayer filtration

Available particle size ranges:

0.1–0.4 | 0.1–0.9 | 0.4–0.9 | 0.9–1.6 | 1.6–4 | 5–10 | 10–15

ECO10

■ DRINKING WATER DISINFECTANT

ECO10 is a chlorine dioxide-based water disinfectant, developed to ensure **safe, effective disinfection** across water supply and treatment systems. Simple to apply and environmentally responsible, it is effective against harmful micro-organisms without generating hazardous by-products.

Key solutions:

Water disinfection · Drinking water treatment · Supply systems · Storage tanks · Distribution networks

DRIZORO

REPAIR & WATERPROOFING

DRIZORO provides advanced technical solutions for **waterproofing, repair and structural protection**, offering products suitable for concrete, masonry, joints, fixings and industrial flooring.

Key solutions:

Waterproofing · Repairs · Concrete protection · Joint treatment · Fixings · Industrial flooring

WEG

MOTORS & ELECTRICAL

WEG strengthens ECOINDUSTRY's portfolio with solutions for **motors, energy and industrial automation**, providing high-efficiency equipment for a broad range of industries. The brand responds to industrial requirements with dependable technology, strong energy performance, and solutions specifically designed for critical operations.

Key solutions:

Electric motors · Transformers · Generators · Industrial automation · Electrical panels

KSB

PUMPS, VALVES AND SYSTEMS

ECOINDUSTRY incorporates KSB solutions within its portfolio for **water abstraction, pumping, treatment and distribution**, delivering highly dependable equipment for industrial, municipal and infrastructure applications.

As an **Authorised KSB Dealer** in Angola, ECOINDUSTRY also provides specialist technical support, servicing and repairs through its authorised workshop.

Key solutions:

Centrifugal pumps · Submersible pumps · Valves ·
Pumping systems · Water abstraction

LOVIBOND

EQUIPMENT AND REAGENTS FOR WATER ANALYSIS

Lovibond is a global benchmark in **equipment, reagents and solutions for water quality analysis and control**. Its range meets the needs of laboratories, water authorities, industry and the environment, combining analytical accuracy, reliability and ease of use.

Key solutions:

Photometry · Turbidity · Electrochemistry · Microbiology

ECOINDUSTRY supplies Lovibond equipment and reagents in Angola, including compatible alternatives to a range of HACH consumables.

ECOTANK

CONTAINERISED WATER AND WASTEWATER PLANTS

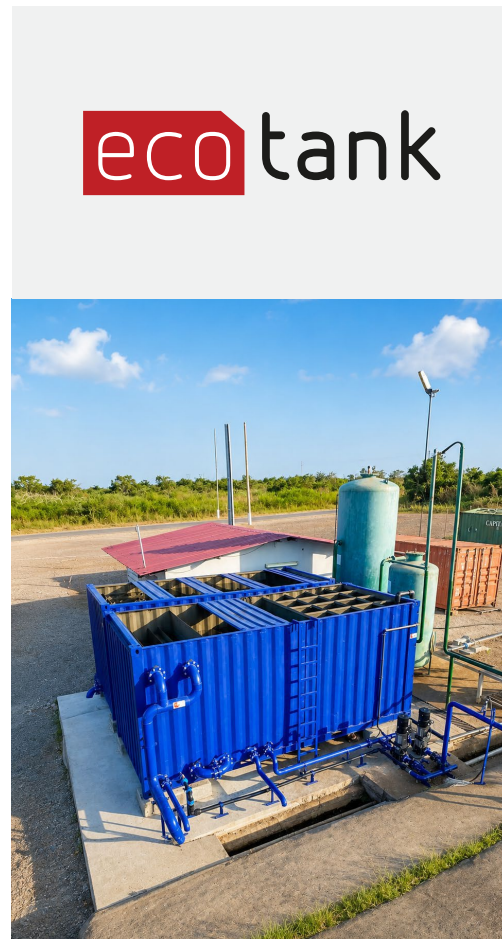

ECOTANK is a robust, modular solution for **water and wastewater treatment**, designed to meet the requirements of water supply, industry, agriculture, sanitation and fire networks. Featuring a containerised structure, high capacity and straightforward installation, it operates reliably across a range of environments and delivers long-term performance.

Key solutions:

Containerised water treatment plants · Containerised wastewater treatment plants ·

Water treatment · Wastewater ·

Water supply · Firefighting network

ecolar

DISINFECTION, HYGIENE AND CLEANING

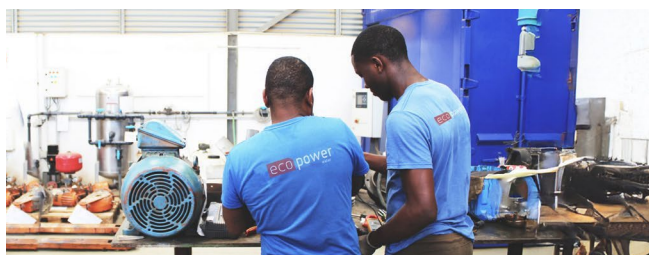

ECOLAR brings together solutions for hygiene, cleaning, disinfection and technical household use: **Ecofood** for fruit and vegetables, **Ecolixívia** and **Ecowash** for daily cleaning, and **Ecopure** for specific professional and domestic applications. A practical range, made in Angola, designed to meet everyday requirements.

WORKSHOP

REPAIR, MAINTENANCE AND COMMISSIONING

The ECOINDUSTRY Workshop provides **repair, maintenance and commissioning** services for equipment used in water supply systems. The technical team provides diagnostics, on-site interventions and ongoing support for multi-brand equipment, pumps, motors and electrical control panels.

Strong partnerships, *enduring relationships.*
